beautiful moments**

A photograph of a modern glass and metal entrance door system. The door is partially open, revealing a bright interior space with a dark carpet and a white wall. The door frame is made of polished metal. The image is overlaid with a large teal shape that points downwards from the top left corner. The word "Doors" is written in large, bold, teal letters across the center of the image. On the left side, there is a reflection of a person and the word "Unifon" on a glass panel.

Doors

Augusta EVO

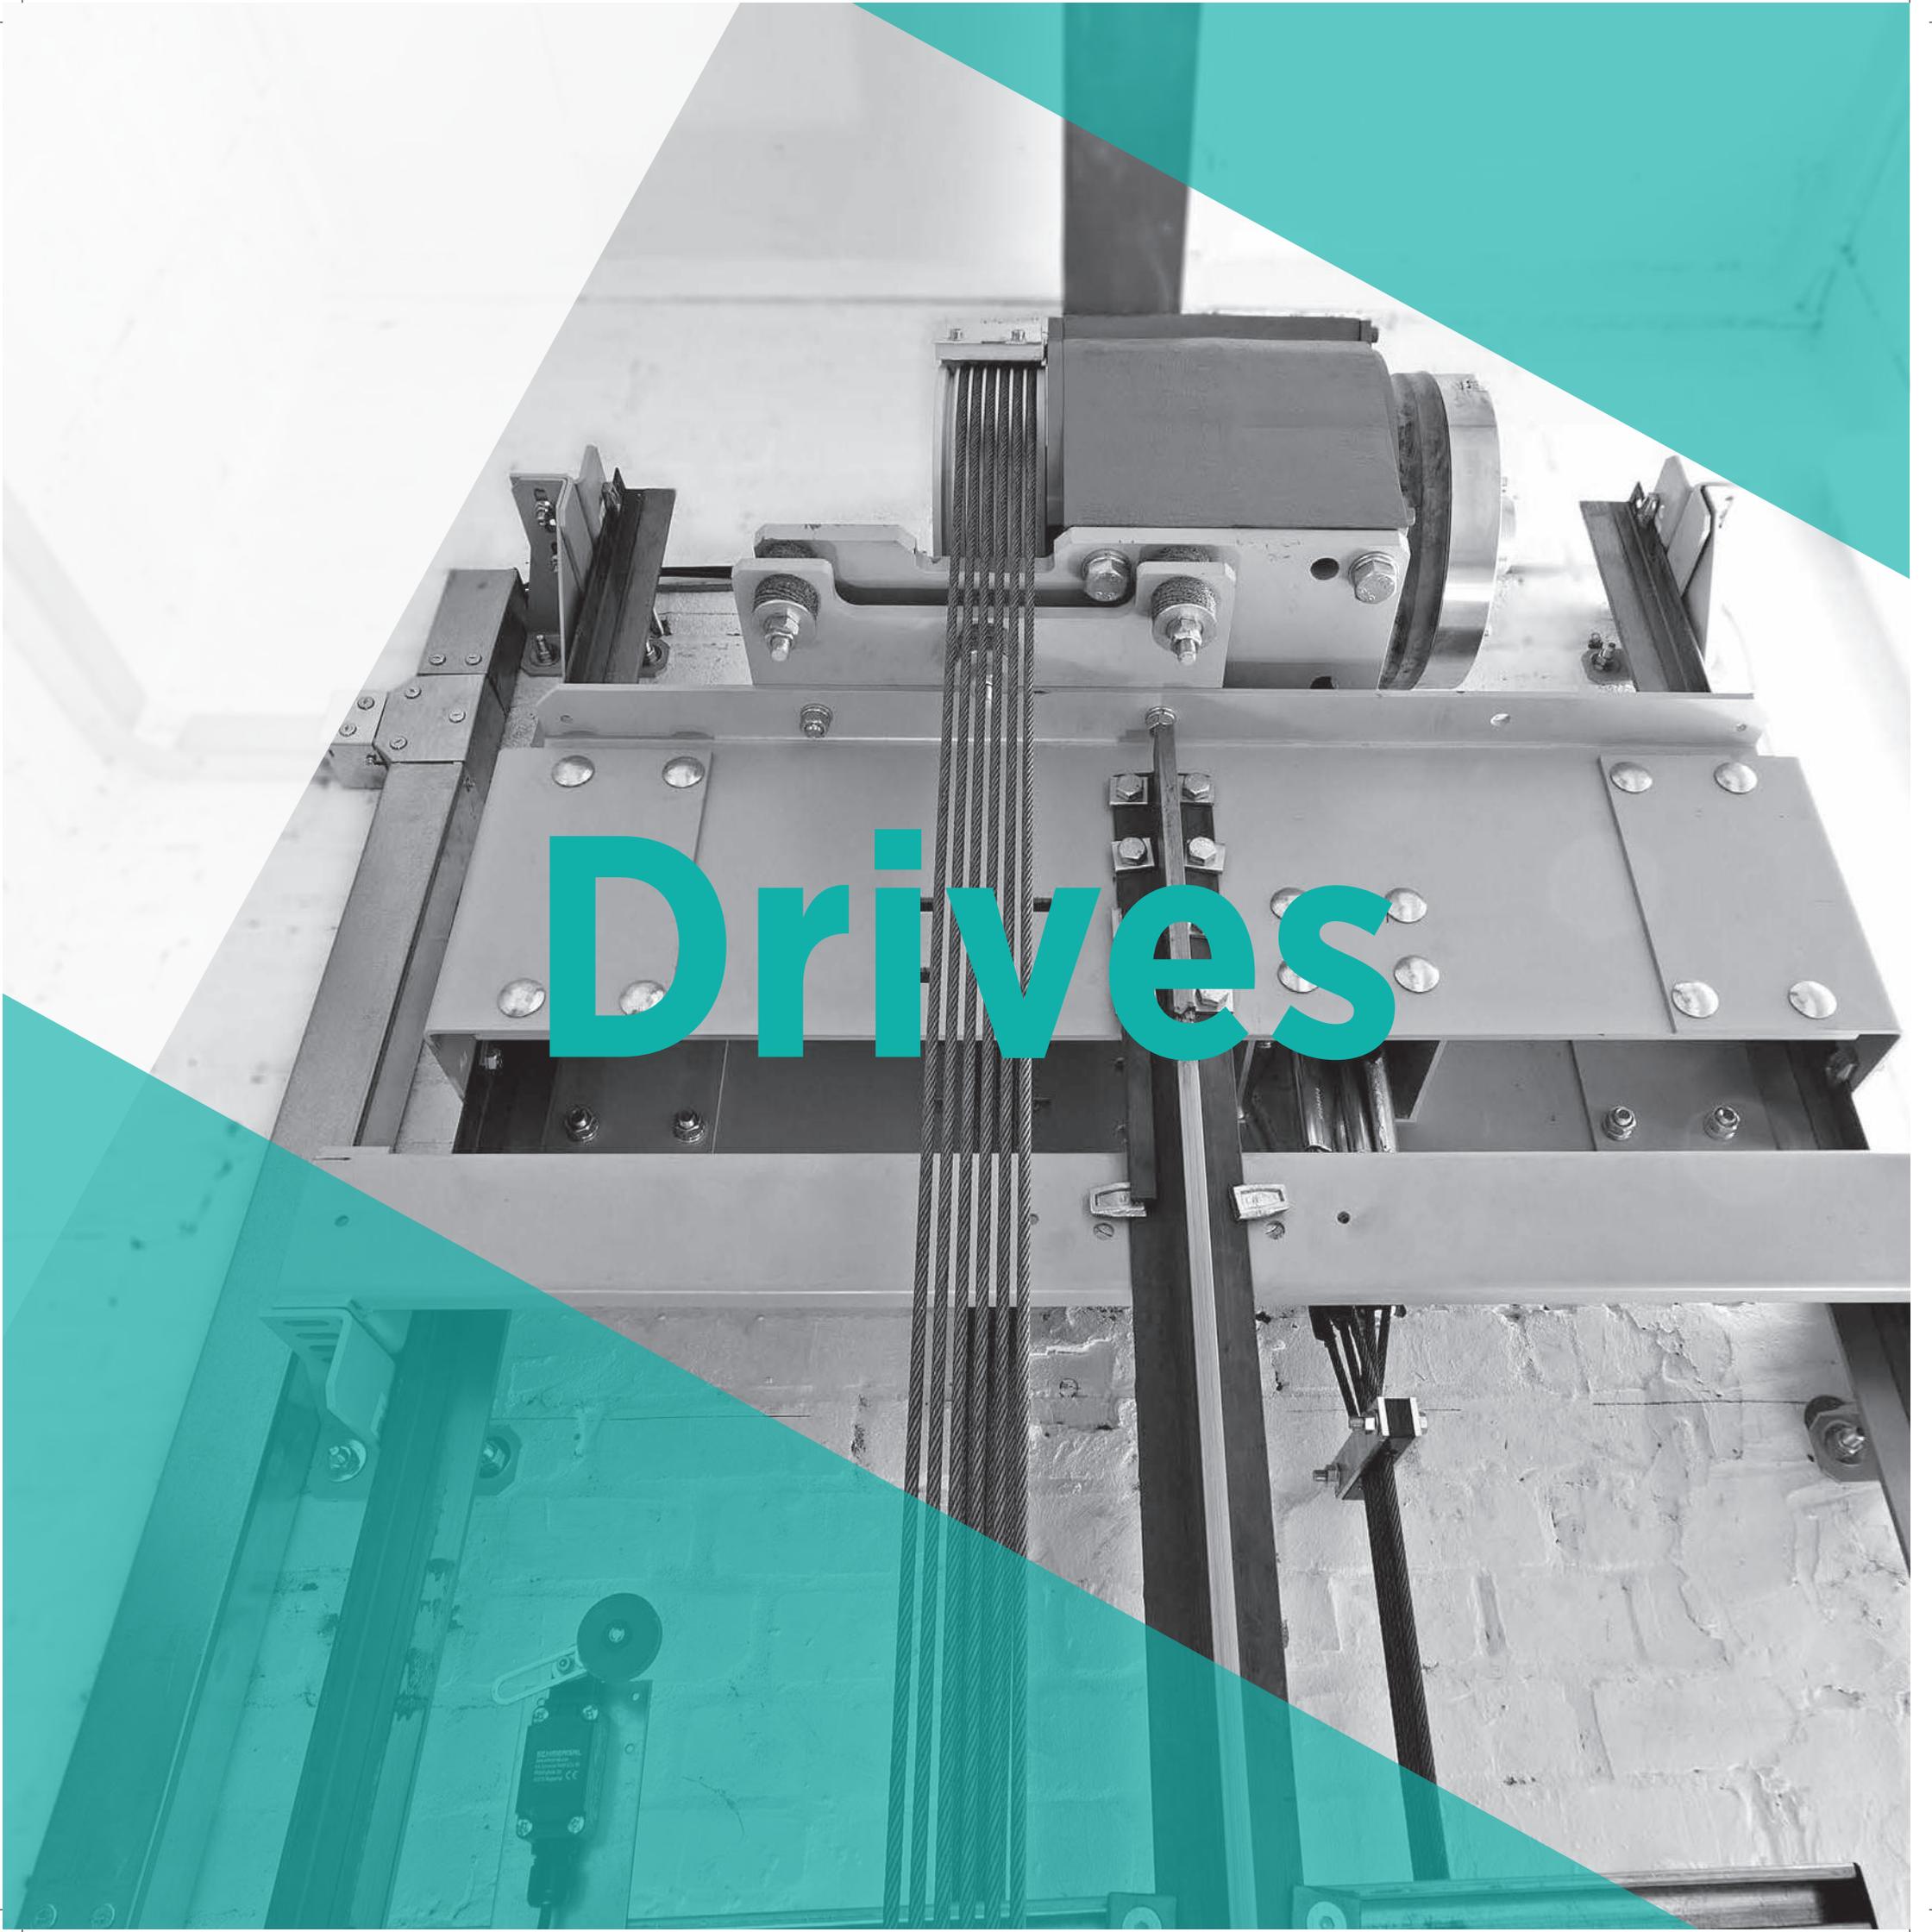

Hydra

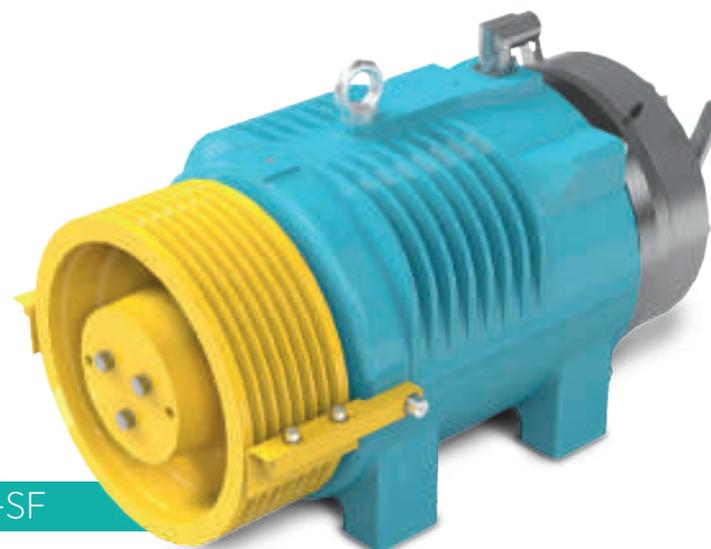

Core

* Standard steel panel doors fire rating is E120.
Please refer to Wittur Door Catalogue for further details.

A detailed view of an elevator drive system. At the top, a motor is connected to a series of steel cables. These cables run vertically through a complex metal frame of beams and bolts. The cables are secured with various mechanical components, including pulleys and brackets. The entire assembly is mounted on a concrete wall. The image is overlaid with a teal geometric design consisting of several overlapping triangles.

Drives

Smooth, fast and comfortable travel

Controller

E-Pack Evo

- **Power Range:**
Between 4kW and 22kW.
- **Silent:**
Operates quietly through its contactor-less system (Safe Torque Off - STO).
- **Compact Dimensions:**
Lift controller and frequency inverter integrated in one device.
- **DSP-Based design:**
Highest level of comfort and efficiency.
- **Fast Installation:**
Pre-arranged cabinet complete with all electrical components.
- **Group Control:**
Support for group of lifts up to 8.
- **Hardware:**
Built-in RFI filter and choke coil.
- **Interfaces:**
USB and Ethernet.
- **Remote Access:**
Remote access via internet.
- **Access Control:**
Integrated access control and VIP Access support.
- **TFT Hand Terminal**
- **Easy Update:**
The hand-held terminal stores all data in the integrated SD card.

E-Pack Plus

- **Compact Dimensions:**
Integrated control with frequency inverter.
- **Fast Installation:**
Pre-arranged cabinet complete with all electrical components.
- **Fits in Every Shaft:**
With compact control cabinet dimensions or with service panel in front of the landing door frame and the power unit inside the head room.
- **Easy Update:**
The hand-held terminal stores all data in the integrated SD card.
- **Easy Setting:**
Automatic motor tuning, shaft learning features.
- **Remote Control:**
Can bus connection between hand-held terminal with colored TFT display and lift. No PC needed.
- **5 Pre-Set Comfort Parameters:**
The 5 most important parameters for fast and safe commissioning.
- **Always Have An Access To The Latest Manuals:**
With hand-held terminal always access to the latest firmware.
- **Further Advantages:**
High stopping accuracy, retraction with opening door, energy-saving mode, releveling, short floor drive, integrated EMC filter and DC choke, 230 VAC safety circuit.
- **Hand Terminal**
